WIRED TO WORK: YOUR BRAIN, YOUR PATH

Map Your Sensory Environment

Module 8: Sensory Aspects of the Office and ND Burnout | Participant Worksheet

Let's take stock of the sensory input in your workspace and how it affects you. There are no right or wrong answers. Something that pulls your focus all day might not even register for the person at the next desk.

Type, handwrite, draw or doodle. Whatever works for you.

Space I'm mapping: _____ **Date:** _____

1 It barely affects me.	**5** It affects me a lot.
